To whom it may concern:

I SUPPORT EXISTING NET NEUTRALITY LAWS!

Net neutrality is about freedom! Freedom of speech, freedom of each individual to have an equal voice. On the internet, as much as possible, we are all on level ground. Net neutrality encourages small business by giving everyone an equal chance at reaching the public. It allows us, the public, to have options. Net neutrality is as American as apple pie. Please do not give in to big business. Americans first!

Thank you.

A handwritten signature in black ink, appearing to read "B. Ozel", with a small "11" written above the first letter.

Begum Ozel
